

Assert Class — Complete Methods Reference

File: tests/base/Assert.js | Total Methods: 83

Hard Assertions (fail immediately)

#	Method	Parameters	Description
1	assertElementContainsText	(selector, text)	Element text contains expected text (ignore case)
2	assertEqualIgnoreCase	(actualText, expectedText)	Text equals (ignore case)
3	assertEqualIgnoreCaseAndWhitespace	(actualText, expectedText)	Text equals (ignore case + whitespace)
4	assertArrayOfElementsTextEquals	(array)	Array of {element: text} equals
5	assertArrayOfElementsTextEqualsIgnoreCase	(array)	Array of {element: text} equals (ignore case)
6	assertArrayOfElementsContainsIgnoringCase	(array)	Array of {element: text} contains (ignore case)
7	assertArrayOfElementsContainsIgnoringCaseAndWhitespace	(array)	Array contains (ignore case + whitespace)
8	assertTextIsVisible	(selector)	Element with text is displayed
9	assertContainsText	(actual, expected, errorMsg?)	Text contains text (whitespace normalized)
10	assertContainsTextIgnoreCase	(actual, expected)	Text contains text (ignore case)
11	assertEqual	(actual, expected, errorMsg?)	Strict text equals
12	assertElementTextEquals	(element, text)	Element text equals (ignore case)
13	assertElementIsNull	(actual, errorMsg?)	Value is null
14	assertNotEqual	(actual, expected, errorMsg?)	Values are not equal
15	assertEqualArrayOfTexts	(array)	Array texts equal at each position
16	assertArrayOfElementsAreDisplayed	(arrayOfLocators)	All elements visible
17	assertElementIsVisible	(selector, message?)	Element is visible
18	assertElementIsNotVisible	(selector, message?)	Element is NOT visible
19	assertElementIsSelected	(selector, message?)	Element is selected
20	assertElementIsChecked	(selector, message?)	Checkbox is checked
21	assertTrue	(value, message?)	Value is true
22	assertFalse	(value, message?)	Value is false
23	assertPageTitle	(expectedTitle)	Page title equals
24	assertUrlContains	(expectedContent)	URL contains text
25	assertValueEquals	(array)	Array of {element: value} attribute equals
26	assertElementIsClickable	(selector)	Element is clickable
27	assertArraysNotInclude	(array, expected)	Array does NOT include value
28	assertArraysInclude	(array, expected)	Array includes value

29	assertArrayOfElementsTextEqualsNormalizeWhitespace	(array)	Array text equals (normalized whitespace)
30	assertNormalizedTextEquals	(actual, expected, errorMsg?, options?)	Normalized text equals
31	assertElementNormalizedTextEquals	(selector, expected, errorMsg?, options?)	Element normalized text equals
32	assertCleanUITextEquals	(actual, expected, errorMsg?)	Aggressive whitespace normalization equals
33	assertElementCleanUITextEquals	(selector, expected, errorMsg?)	Element clean UI text equals
34	assertNormalizedJsonEqual	(actualJson, expectedJson, errorMsg?)	JSON objects equal after normalization

Soft Assertions (collect failures, assert all at end)

#	Method	Parameters	Description
35	softAssert	(expected, actual, errorMsg?)	Text equals (normalized)
36	softAssertSimple	(expected, actual, errorMsg?)	Simple text equals (no normalization)
37	softAssertWithJsCleanup	(expected, actual, errorMsg?)	Text equals after removing JS code patterns
38	softAssertContainsTextIgnoreCase	(actual, expected, errorMsg?)	Text contains (ignore case)
39	softAssertTrue	(value, errorMsg?)	Value is true
40	softAssertFalse	(value, errorMsg?)	Value is false
41	softAssertElementIsVisible	(selector, message?)	Element is visible
42	softAssertElementIsVisibleInFrame	(iframe, selector, message?)	Element visible in iframe
43	softAssertElementIsNotVisible	(selector, message?)	Element is NOT visible
44	softAssertElementIsNotVisibleInFrame	(iframe, selector, message?)	Element NOT visible in iframe
45	softAssertElementIsNotSelected	(selector, message?)	Element is NOT selected
46	softAssertElementIsSelected	(selector, message?)	Element is selected
47	softAssertForNotTrue	(selector, elementName)	Value is not true
48	softAssertFieldIsReadOnlyOrDisabled	(selector, errorMsg?)	Field is read-only/disabled
49	softAssertElementIsClickable	(selector, errorMsg?)	Element is clickable
50	softAssertElementTextEquals	(element, expected, errorMsg?)	Element text equals
51	softAssertElementTextEqualsNormalized	(element, expected, errorMsg?)	Element text equals (normalized)
52	softAssertElementTextEquals_IgnoreNbps	(element, expected, errorMsg?)	Element text equals (remove NBSP)
53	softAssertElementTextEqualsIgnoreCase	(selector, expected, errorMsg?)	Element text equals (ignore case)
54	softAssertElementValueEquals	(element, expected, errorMsg?)	Element value attribute equals
55	softAssertElementContainsText	(element, expected, errorMsg?)	Element text contains
56	softAssertElementContainsTextInFrame	(iframe, element, expected, errorMsg?)	Element contains text in iframe

57	<code>softAssertElementContainsTextUsingInnerText</code>	(element, expected, errorMsg?)	Element innerText contains
58	<code>softAssertElementContainsTextNormalized</code>	(element, expected, errorMsg?, options?)	Element contains (normalized whitespace)
59	<code>softAssertElementDoesNotContainsText</code>	(element, expected, errorMsg?)	Element does NOT contain text
60	<code>softAssertElementContainsTextIgnoreCase</code>	(selector, expected, errorMsg?)	Element contains (ignore case)
61	<code>softAssertElementContainsArrayOfText</code>	(element, expectedArr, errorMsg?)	Element contains all texts in array
62	<code>softAssertElementContainsArrayOfTextInFrame</code>	(frame, element, expectedArr, errorMsg?)	Element contains array in iframe
63	<code>softAssertContains</code>	(expected, actual, errorMsg?)	Text contains text
64	<code>softAssertDoesNotContain</code>	(expected, actual, errorMsg?)	Text does NOT contain
65	<code>softAssertArrayOfText</code>	(expectedArr, actualArr, errorMsg?)	Arrays equal at each position
66	<code>softAssertArrayOfTextContains</code>	(expectedArr, actualArr, errorMsg?)	Array items contain
67	<code>softAssertArrayOfElementsContainsText</code>	(array, errorMsg?)	Array of {element: text} contains
68	<code>softAssertArrayOfElementsTextEquals</code>	(locators, mapping, errorMsg?)	Array of elements text equals
69	<code>softAssertMultipleElementTextsFromSelectorObject</code>	(selectorObj, expectedObj, errorMsg?)	Multiple selector texts equal
70	<code>softAssertMultipleElementTextsIgnoreCaseFromSelectorObject</code>	(selectorObj, expectedObj, errorMsg?)	Multiple selector texts equal (ignore case)
71	<code>softAssertArrayContainsArray</code>	(actualArr, expectedArr, errorMsg?)	Array contains all items of another
72	<code>softAssertArrayEqualsArray</code>	(actualArr, expectedArr, errorMsg?)	Arrays equal (any order)
73	<code>softAssertArrayOfElementsAreDisplayed</code>	(arrayOfLocators, message?)	All elements visible
74	<code>softAssertArrayOfElementsAreDisplayedInFrame</code>	(iframe, arrayOfLocators, message?)	All elements visible in iframe
75	<code>softAssertArrayOfElementsAreNotDisplayed</code>	(arrayOfLocators, message?)	All elements NOT visible
76	<code>softAssertElementNormalizedTextEquals</code>	(selector, expected, errorMsg?, options?)	Element normalized text equals
77	<code>softAssertNormalizedTextEquals</code>	(actual, expected, errorMsg?, options?)	Normalized text equals
78	<code>softAssertElementTextEqualsInFrame</code>	(element, expected, errorMsg, frame)	Element text equals in iframe
79	<code>softAssertElementTextEqualsInFrameNormalized</code>	(element, expected, errorMsg, frame)	Element text equals in iframe (normalized)
80	<code>softassertEqualArrayOfTexts</code>	(array)	Array texts equal

Utility Methods

#	Method	Description
81	<code>assertAll()</code>	Fails test if any soft assertions were collected

82	<code>normalizeTextForComparison(text)</code>	Normalizes whitespace, smart quotes, diacritics, zero-width chars
83	<code>normalizeJsonObject(obj)</code>	Recursively normalizes all strings in a JSON object
